

DATA SHEET

For research use only. Not for use in humans.

Reagent:	Monoclonal Anti-Simian Immunodeficiency Virus (SIV) SIVmac p27 Protein (KK64, produced <i>in vitro</i>)
Catalog Number:	ARP-2321
Lot Number:	180159
Release Category:	B
Provided:	Each vial of ARP-2321 contains approximately 1 mL of culture supernatant.
Description:	ARP-2321 is a monoclonal antibody to SIVmac protein p27.
Host:	Mouse (BALB/c)
Titer:	The user should determine the optimal concentration for any application.
Special Characteristics:	<p>This monoclonal antibody was produced in cell culture. It originates from a hybridoma. The hybridoma was created by immunizing BALB/c mice with a SIVmac251 gag vaccinia recombinant (vAbT252), then boosting them with glutaraldehyde-fixed SIVmac 11/88 from C8166 cells. The resulting splenocytes were fused to NS-O myeloma cells. KK64 reacts with a SIV p27 peptide corresponding to amino acids 151-180. It recognizes p27 from SIVmac251, SIVsm7, SIVsmmB670 and HIV-2 SBL.</p> <p>Suggested applications are ELISA and western blot.</p>
Recommended Storage:	Keep at 4°C only for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.
Contributor:	Dr. Karen Kent and Miss Caroline Powell (produced by CFAR, NIBSC)
Isotype:	IgG1

Citation:	Acknowledgment for publications should read "The following reagent was obtained through the NIH HIV Reagent Program, Division of AIDS, NIAID, NIH and the Centre for AIDS Reagents, NIBSC, UK, supported by EURIPRED (EC FP7 INFRASTRUCTURES-2012 – INFRA-2012-1.1.5: Grant Number 31266) (www.euripred.eu): Monoclonal Anti-Simian Immunodeficiency Virus (SIV) SIVmac p27 Protein (KK64, produced <i>in vitro</i>), ARP-2321 (CFAR# 3005), contributed by Dr. Karen Kent and Caroline Powell." Also include the reference cited in any publications.
Biosafety Level: 1	Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. <i>Biosafety in Microbiological and Biomedical Laboratories</i> , 6th ed. Washington, DC: U.S. Government Printing Office, 2020; see www.cdc.gov/biosafety/publications/bmbl5/index.htm .
Disclaimers:	You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the NIH HIV Reagent Program Material Transfer Agreement (MTA). The MTA is available on our Web site at www.hivreagentprogram.org.

While the NIH HIV Reagent Program uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to the NIH HIV Reagent Program are not liable for damages arising from the misidentification or misrepresentation of products.

Use Restrictions:

This material is distributed for internal research purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.

Note:

Scientists at for-profit institutions or who intend commercial use of this reagent must contact NIBSC at the following email address: CFAR@NIBSC.org, before the reagent can be released.
