Monoclonal Anti-Human Immunodeficiency Virus Type 1 (HIV-1) Negative Regulatory Factor (Nef), Clone JR6 (produced in vitro)

Catalog No. HRP-20078

For research use only. Not for use in humans.

Contributor and Manufacturer:
Abcam Inc., Cambridge, MA, USA

Product Description:
Abcam Catalog No. ab42358 (Lot GR3362457-8)
Antibody Class: IgG1
Mouse monoclonal antibody prepared against the recombinant Negative Regulatory Factor (Nef) protein of human immunodeficiency virus type 1 (HIV-1) B subtype. Clone JR6 was purified by protein A affinity chromatography. The antibody epitope is mapped to amino acids 195-205 of HIV-1 B subtype consensus (ARELHPEYYKD).

Material Provided:
Each vial of HRP-20078 contains approximately 100 µL of purified monoclonal antibody in phosphate-buffered saline (PBS), with 0.1% sodium azide as a preservative (pH:7.4). The concentration expressed as milligrams per milliliter is shown on the Certificate of Analysis.

Packaging/Storage:
HRP-20078 was packaged aseptically in screw-capped plastic vials and is provided frozen on dry ice. The product should be stored at -20°C or colder immediately upon arrival. Freeze-thaw cycles should be avoided.

Functional Activity:
HRP-20078 recognizes human Nef and was shown to be reactive in ELISA, western blot, and immunofluorescence assays.

Citation:
Acknowledgment for publications should read “The following reagent was obtained through the NIH HIV Reagent Program, NIAID, NIH: Monoclonal Anti-Human Immunodeficiency Virus Type 1 (HIV-1) Negative Regulatory Factor (Nef), Clone JR6 (produced in vitro), HRP-20078, contributed by Abcam Inc.”

Biosafety Level: 1

Disclaimers:
You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the NIH HIV Reagent Program Material Transfer Agreement (MTA). The MTA is available on our Web site at www.hivreagentprogram.org.

While the NIH HIV Reagent Program uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use, and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure the authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers, and contributors to the NIH HIV Reagent Program are not liable for damages arising from the misidentification or misrepresentation of products.

Use Restrictions:
This material is distributed for internal research, and non-commercial purposes only. This material, its product, or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products, or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before the first commercial sale.
