DATA SHEET

Reagent: Antiserum to HIV-2 ST gp120

Catalog Number: 1410

Lot Number: 2/27/92

Provided: 200 µl antiserum containing 0.02% azide.

Host or Host Site: Rabbit.

Titer: >1:250,000 by ELISA. Can be used in Western blots at 1:2000 with protein A detection or at 1:5000 with enhanced chemiluminescence detection (Mulligan et al.)

Recommended Storage: Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.

Contributor: Dr. Raymond Sweet, SmithKline Beecham Pharmaceuticals.
